Data definitions

Total population

- 2016 DHIS mid-year population estimates

Population (0-14)

- 2016 DHIS mid-year population estimates

Female headed households

- From Stats SA 2011 Census

AGYW 15-24

- 2016 DHIS mid-year population estimates

HIV prevalence

- Based on provincial prevalence estimates from HSRC 2012 survey for 15-24 year olds and 15-49 year olds
- Further split into sub-district level using population estimates by age and gender from DHS
- Ratio of men : women 15-24 living with HIV from ????

Unemployment rate

- From Stats SA 2011 Census

Youth unemployment rate

- From Stats SA 2011 Census

Females/Males 16-18 not in school

- DBE estimates of learners grade 8-12 at district level
- Estimates by gender based on DBE estimates of GPI and GER grade 8-12 at the province level for year?
- Further split into sub-district level using population estimates by age and gender from DHS

Matriculation 20+

- From Stats SA 2011 Census

Number of deliveries in facility for girls <18

- From DHIS from Apr 2014 to March 2015

Under 18 pregnancies (percent of female population)

- Number of deliveries in facility for girls <18 divided by female population 15-19 from DHIS
